Re: Claim DEMO-CLAIM-001 — denial dated 2026-10-15

Dear Claims Reviewer,

We request review of the CO-197 denial for the service dated 2026-09-01, procedure code 99213. The fictional remittance shows $250 billed, $0 paid and a $250 contractual adjustment.

The remittance reports an authorization-related denial. The supplied evidence does not establish whether authorization was requested, obtained or submitted. [Authorization evidence required.] The biller must verify the authorization record and the applicable payer policy before completing this draft. No assertion of retroactive authorization acceptance is made.

Documents to obtain and review before any submission:

1. The complete denial notice.
2. The authorization record, if one exists.
3. Documentation supporting the billed service.

No supporting documents are represented as attached to this draft. The sample's 180-day deadline is a fictional training rule; the actual payer's deadline must be verified in a real case.

[Reviewer name and practice contact]

[Patient and member identifiers — not supplied in this training sample]

[Provider name and NPI]

[Signature after human review]
